Authors Profile

Subhash Chandra Gupta is a research scholar in the Department of Computer Applications of V.B.S. Purvanchal University, Jaunpur. He has received his M.C.A. degree from Indira Gandhi National Open University, New Delhi. His research area is Data mining. He has published some articles in international journals and conferences. His interests include data mining, python, data structure and algorithms.

Durgesh Kumar Singh is Research Scholar in the Department of Computer Applications of Veer Bahadur Singh Purvanchal University, Jaunpur. He has received her M.C.A. degree in computer applications from Dr. K. N Modi Institute of Engineering & Technology, Ghaziabad. His research area is customer relationship management using data mining technology, and has published some review articles in international journals and conferences and participated in many workshop. His interests include data mining, python, R programming languages, Java.

Dr. Noopur Goel is currently working as an Assistant Professor in the Department of Computer Applications, Veer Bahadur Singh Purvanchal University, Jaunpur, and have more than 20 years of teaching experience. She has achieved her Ph.D. (Computer Science) from Banaras Hindu University, Varanasi. Her research interests include Software Testing, Software Reuse. She is serving as an editorial member and reviewer of several international reputed journals. Dr. Noopur Goel is the member of many international affiliations. She has successfully completed her Administrative responsibilities. She has authored of many research articles/books related to Software Testing, Software Reuse.
