Authors Profile

Ms. Monika Sharma is currently pursuing the Ph.D. degree in Computer Science & Engineering with Poornima University, Jaipur, India. She completed M. Tech in Computer Science and Engineering in 2005. She had worked at various positions in the software industry and Academics. She was awarded the National Merit Scholarship Award from the ministry of HRD, Government of India, for excellent performance in Secondary Board Exam, Ring of Quality Award for improving Software Quality and Special recognition for enhancing the Moodle software. She has presented and published many papers in conferences and journals. She is a member of IEEE, IETE and ACM. Her area of research is GIS, Data Science, Machine Learning and Software engineering.

Dr. Shiv Kumar Agarwal did his B. Tech in 2006 in Computer Engineering, M. Tech in 2014 and Ph. D in 2020 in Computer Science & Engineering. Presently he is working as Associate Professor in Poornima University, Jaipur, India. He has more than 15 years of teaching experience in Engineering Colleges & Universities. His key areas are Data base management system, Machine Learning, Information Security and Soft Computing. His research interest includes swarm intelligence algorithms and their applications in various complex engineering design problems. He has presented and published many papers in conferences and journals.

Professor (Dr.) Mahesh M. Bundele has completed his Bachelor's degree in Electronics and Power in 1986 from Nagpur University, Master's in Electrical Power System and Doctoral in Computer Science & Engineering from Amravati University in 1990 and 2013 respectively. Presently he is working as Principal & Director, Poornima College Engineering, Jaipur, India. He is senior member of IEEE, Life member of ISTE and IEI and the member of ACM. Presently he is working as Member, STDCOM Technical & Professional Activities, and Member ExCom, IEEE Delhi Section & Secretary, IEEE Rajasthan Subsection. His areas of research interest are Machine Learning, Wearable & Pervasive Computing, Software Defined Networks, Wireless Sensor Networks, and Smart Grid Issues etc.
