Author Profile

Hussain Mohammad Abu-Dalbouh is an Associate Professor of Computer Science (Artificial intelligence). Department of Computer Science, College Of Science and Arts in unaizah, Qassim University, Kingdom of Saudi Arabia, He got his Ph.D. in Artificial intelligence from the University of Science Islamic Malaysia in 2012. He received his Master's degree in Information Technology from Northern University of Malaysia in 2009. He obtained his Bachelor's degree in Computer Information System in 2005 from the Al Yarmouk University, Jordan. As an academician, his research interests include Artificial intelligence, Data mining, Visualization, Tree data structure, Data structure and algorithms, Mobile Technology and Applications and Health Informatics. His works have been published in international conferences and journals.
