

## Authors Profile

**Sowmya K S** is working as Assistant professor at department of Information science and engineering, BMSCE. Have Extensive research experience in the domains of Adhoc Networks, Swarm intelligence and genetic algorithms, block chain implementation, Quality of service, Black holes in MANETs, IOT and Machine learning

**Cauvery N K** is currently the deputy director at RSST, Bangalore, served as a Research center head, Professor and Head of the Information science and Engineering Department, RVCE Have Extensive research experience in the domains of Adhoc Networks, Swarm intelligence and genetic algorithms, machine learning models with deep learning models, Artificial Neural networks.

**Sharvani G S** is currently the Associate Professor in the department of Computer Science and Engineering RVCE. Have Extensive research experience in the domains of Computer networks, IoT based pavement health monitoring systems, Networking in IoT, Smart agriculture monitoring, Datacenter Reliability Pursuance with Optimized Load Balancers, Design and development of therapeutic exoskeleton for muscular dystrophy and comatose.
