Authors Profile

GNV Raja Reddy is currently Pursuing Ph.D. at NIT Silchar and also working as Assistant Professor in the department of Computer Science and Engineering, School of Technology, Gandhi Institute of Technology and Management (GITAM) Deemed to be University, Visakhapatnam, Andhra Pradesh, India. He has 8 years' full time teaching experience and his areas of interest are Image processing, Deep Learning. He has authored over five research published articles in high-quality international journals. He is a member of IAENG, UACEE, and IFERP.

K. Suganya Devi is an Assistant Professor at the National Institute of Technology-Silchar Department of Computer Science and Engineering. She earned her doctorate from Anna University in Chennai, India. In 2008, she earned her M.E. in Multimedia Technology from Anna University, Chennai (Gold Medallist). Her research interests include on Image Analysis, Video Interpretation, and Pattern Recognition. She has authored over thirty research articles in prestigious international publications with a high rate of impact.

Ch.Prathima is an assistant professor of School of Computing at Mohan Babu University (MBU), Tirupati. She is a doctoral student in Assam, India, at the National Institute of Technology, Silchar, in the field of computer science and engineering. She graduated at the top of her class in 2009 from GITAM University, Visakhapatnam with a Master of Technology in Computer Science and Technology. Data Mining, Cloud Computing, Security, and Machine Learning are all part of her research remit. There are more than ten research articles of hers that have been published in high-quality international journals.
