Authors Profile

A. Deepak Kumar, Research Scholar, Department of Computer Science and Engineering in Sathyabama Institute of Science and Technology and working as an Assistant Professor, Department of Computer Science and Engineering in St. Joseph’s Institute of Technology. He has completed his B.Tech (Information Technology) and M.E. (Computer Science and Engineering) from Sathyabama University. He has started his career as an Assistant Professor in the year of 2013 and has 9+ years of teaching Experience. His Area of Interest is Machine learning and Artificial Intelligence. He has published papers in Web of Science and Scopus indexed journal. His current research focus towards the fundus image data set of Diabetic Retinopathy affected patients.

Dr. T. Sasipraba, obtained her B.E and M.E., from the University of Madras and Ph.D from Sathyabama University. She joined Sathyabama University in 1995 as a Lecturer and her 19 years of meritorious career in the same University has promoted her as Vice Chancellor of the university in the year 2020. During the course of her career at Sathyabama University Dr.T.Sasipraba has made exceptional contributions in the areas of research and developments, international linkages and Publications. For her outstanding contributions over the years, Dr.T.Sasipraba has received numerous awards from Sathyabama University and from Cognizant Technology Solutions. She has published more than 127 papers in refereed international journals and conference proceedings and has guided many Ph.D. Scholars in the field of Computer Science and Engineering.
