## Authors Profile

Dr.G.Ayyappan, is working as an Associate Professor of Department of Information Technology at Prince Shri Venkateshwara Padmavathy Engineering College, Ponmar, Chennai. His research interest includes Machine Learning, Image Processing, Social Networks, and Computational Intelligence. E-mail: [ayyappangmca@gmail.com](mailto:ayyappangmca@gmail.com)

Dr. R.Venkatesh Babu (V.B) is the Pro Vice-Chancellor of Bharath Institute of Higher Education and Research, Chennai, Tamilnadu, India. He has more than 23 years of experience in Teaching, Research, Academics and Administration. Having done his graduation in Mechanical Engineering, Post Graduation in Computer Aided Design, he did his Doctorate in the field of IC Engines. He is a member of the Academic Council, Board of Management of leading Universities in India. With more than 60 research articles in various indexed and peer reviewed national and international journals and conferences, 3 research scholars have been awarded Ph.D under his guidance and presently 4 are pursuing. His areas of research interest are AI, ML, Cyber Security, Quantum computing, FEA, CFD, MEMS, Smart Nano Materials, Supply Chain etc. As a professional Engineer, he is a Member of the American Society of Mechanical Engineers (ASME), Member of the Institution of Engineering and Technology (MIET), Life Member of the Indian Society for Technical Education (LMISTE) and Member of the Society of Automobile Engineers (SAE). Email Id: [rvbaboo76@gmail.com](mailto:rvbaboo76@gmail.com)
