## Authors Profile

**Muhammad Naufal Abdillah**, is a Computer Science Master Student in the Department of Computer Science at IPB University, Indonesia. He has received his Bachelor degree in Computer Science from IPB University, Indonesia in 2022. This paper is a part of his master's research.

**Wisnu Ananta Kusuma**, is an Associate Professor at the Department of Computer Science, and a researcher at Tropical Biopharmaca Research Center, IPB University, Indonesia. He is also an executive committee of the Asia Pacific Bioinformatics Network and president of the Indonesian Society of Bioinformatics and Biodiversity. His research interests include bioinformatics, machine learning, network pharmacology, and high-performance computing.

**Mushthofa**, is a lecturer at the Department of Computer Science, IPB University, Indonesia. In 2009, he completed his Master's in Computational Logic at the Vienna University of Technology, Austria. In 2018, he received his Ph.D. in Computer Science and Bioinformatics at Ghent University, Belgium. His research interests include artificial intelligence, machine learning, data science, knowledge representation and reasoning, and bioinformatics.

**Mala Nurilmala**, is a Professor at the Department of Aquatic Product Technology, Faculty of Fisheries and Marine Science, IPB University Indonesia and a researcher at Halal Science Center, IPB University, Indonesia. She is also a General Secretary of Indonesian fishery product processing community association. The research interests include fisheries processing as well as marine natural products.
