Authors Profile

In 2010, Naing Naing Khin earned her Master of Computer Science (M.C.Sc.) degree from the University of Computer Studies, Sittway, Myanmar. She is currently pursuing her Ph.D. at the University of Computer Studies, Yangon, Myanmar, and is a member of the Natural Language Processing and Speech Processing Lab at UCSY. Her research interests are Natural Language Processing, Machine Learning, and Image Processing.

In 2005, Dr. Khin Mar Soe finished her doctoral studies in information technology. She is a professor at the University of Computer Studies, Yangon, where she also leads the Natural Language Processing Lab at the Faculty of Computer Science. In the area of natural language processing, she actively supervises Ph.D. and Master's theses. Dr. Khin Mar Soe has also participated to the Asia Language Treebank (ALT) project, which includes research collaboration between NICT, Japan, and UCSY, and ASEAN MT, a machine translation program for South East Asian languages.
