

Authors Profile

Phyu Phyu Htun, is a Ph.D. student at University of Computer Studies, Yangon, (UCSY), Myanmar. She is a member of Computer Graphics Lab of UCSY. In 2010, she received the Master degree in Computer Science from University of Computer Studies, Mandalay, (UCSM), Myanmar. Her current doctoral thesis research focuses on Hyperspectral images classification and segmentation. She is interested in the research area of Computer Vision, Image Processing and Deep Learning.

Ah Nge Htwe, received the B.C.Sc. degree in Computer Science at University of Computer Studies, Yangon, (UCSY), Myanmar, in 2002. In 2004, she received the Master degree in Computer Science at UCSY, Myanmar. She received her Ph.D. degree in Information Technology at the (UCSY), Myanmar, in 2010. She is Professor at Faculty of Computer Science, UCSY. Her interesting research fields are AI, Deep learning, Image Processing and Computer Vision.

Nan Nu Nu Kyi, is a associate professor at Faculty of Information Science, University of Computer Studies (Hpa-An), Myanmar. She got her B.C.Sc(Hons:) in 2008, and followed by M.C.Sc. in 2010 respectively. She is interested in research area of Deep Learning and Cloud Computing.

Poe Ei Phyu, is an associate professor at Faculty of Computer Science, University of Computer Studies, Hpa-An. She received B.C.Sc (Hons:) in 2007, followed by M.C.Sc in 2010. She is interested in the research area of Deep Learning and Image Processing.
